Provisions

Measurements, Monitoring, Metering and Reporting

An approved measuring device shall be installed and maintained for the source diversion(s) and withdrawal(s) for the following water right claim(s), permit(s) and certificate(s) Adj. Cert. No. 54. Such measuring devices shall be in accordance with the rule "Requirements for Measuring and Reporting Water Use", Chapter 173-173 WAC. The rule above describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition Ecology for modifications to some of the requirements. Summary information on installation, operation and maintenance requirements is enclosed.

Water use data shall be recorded weekly and shall be submitted annually to Ecology by January 31st of each calendar year.

At a minimum, the following information shall be included with each submittal of water use data on a form prescribed by the Department:

- water right holder name, mailing address and daytime phone number,
- contact name and phone number if different than water right holder,
- WRIA,
- parcel number for place of use of water rights (except for public water systems),
- Permit, Certificate or Claim number(s),
- source name,
- annual quantity of diversion or withdrawal ("Qa"),
- maximum rate of diversion or withdrawal during the entire year ("Qi"),
- date (if available) of maximum rate of diversion or withdrawal,
- monthly meter readings (Note: Ecology is requiring submittal of monthly meter readings and maximum rate of diversion or withdrawal for each month to collect seasonal information for water resource planning, management and compliance),
- maximum rate of diversion or withdrawal during each month,
- type of meter,
- last calibration or inspection date, and
- period of use.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the records of water use that are kept to meet the above conditions, and to inspect at reasonable times any measuring device used to meet the above conditions.

General Conditions

This superseding certificate is the result of the division of Walla Walla Adjudicated Surface Water Certificate No. 54 under multiple Trust Water Applications, and shall not be construed as validation as to the extent of the document. The amounts provided on the superseding portions of this water right reflect the remaining portion of the right not put into the trust program. The actual amounts authorized by the superseding certificate are subject to the historic beneficial use of water under Walla Walla Adjudicated Surface Water Certificate No. 54.

The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.

This certificate of water right is specifically subject to relinquishment for non-use of water as provided in Chapter 90.14 RCW.

Given under my hand and the seal of this office at Spokane, Washington, this 24th day of March, 2011.

Ted Sturdevant, Director
Department of Ecology
